She is a brilliant beader who likes to take risks and do her own thing. Her work is detailed and it is fun and interesting and different from the main stream. She uses weird stuff to make beautiful jewelry. She marches to her own drummer. As a beader myself I have grown to be the same way. I just needed to do my own thing! After beading for the majority of my life the few beaders who really go to this

odd and interesting place started to find each other. It was our like-mindedness which drew us together and it is so exciting to see Diane putting all this onto pages with clear and concise instructions for those who are more timid in their approach. You do not need to hesitate about this purchase. It is a winner all the way! Diane slams it home in this book. The projects are beautiful and some simple enough you can make something cool in a couple of hours. You will be inspired to challenge yourself in new ways. You will see that YOU can do this work. You will learn the tricks and techniques and you too will be slamming home some crazy new work of your own, using things you never thought possible. Nothing is sacred. The projects use found objects from tiny dolls to thimbles. Light bulbs to spoons, Keys, to hinges. All put together in exciting ways. After perusing this book You will see inspiration in objects that are all around you and will start wanting to bead around everything in your house not only because it's fun but because now you are armed with the knowhow and expertise of Diane Hyde! Kudos to you LADY Di. And Kudos to all you future beaders of found objects, Time to go Break The Rules! 6 of 6 people found the following review helpful. So Much Fun By SLK This book is right up my alley, I love to use trash to treasure, old and new in my beading. This book brings this style alive. Diane really plays with all kinds of found objects to create unique and inspiring pieces. There are beautiful pictures and detailed instructions for each of her projects. I will use the book more for inspiration than exact duplication, but with the complete material lists the projects can be duplicated. It's a fun book that all including the more adventurous will enjoy. 4 of 4 people found the following review helpful. *MUST HAVE* for your beading library! By Bellyrina Personally, I am not into doing the actual projects. I rarely am when it comes to bead books, but wow! The ideas I have thanx to this book makes it a *must have* for my beading library. Idea's like the the "reverse collar", the new funky way to bezel a cab, various ideas on using items I wouldn't have thought to use in BE... it's open up endless possibilities. So many beautiful and informative photos as well. I am totally inspired and have a new perspective I can use in future projects.

Just about anything is fodder for Diane Hyde's eclectic, multilayered jewelry: found objects, quirky oddities, old images, and vintage materials. Beaders will love exploring her whimsical style and learning how they too can create beautiful pieces from seemingly ordinary, everyday things. Diane reveals her special, accessible techniques for working with these items, and presents 22 fanciful, fun projects, including a pendant with a wine cork affixed to a Pierrot doll head and embellished with bicone crystal beads; clever Light It Up Earrings, with mini lightbulbs haloed with floral-shaped beads; and figurines, necklaces, bracelets, and more!

About the Author In addition to making jewelry, wearable art, dolls, and purses since the late 1970s, Diane Hyde has been beading for almost 20 years and teaching for a decade. She is celebrated for her signature aesthetic, based on the steampunk look with visual softness added by beads and beadweaving techniques. (Her fans call it beadpunk.) Diane's work has appeared in numerous magazine articles and books, and she has won awards in the world's preeminent beading competition, BeadButton Magazine's Bead Dreams, every year since 2001. Diane's company, Designer's Findings, specializes in hard-to-find jewelry components. She lives in Waukesha, WI.
