good time. Lots of fun ghoulish illustrations are followed by short captions, kind of one or two sentence stories to go along with the pictures. Some of my favorites are Workin Cats about Area 51 and Monster Monday and the Black Lagoon. Its all in fun and this ghoulish wanted to grab a sketch pad and pencil and try some of my own. The author should make this a coloring book. Now, that would be even more fun. 2 of 2 people found the following review helpful. Definitely worth the read; fun! By A. Charbonneau Do you need just a little bit more fun and creativity in your life? Get this book! Little doodles and very short, fun stories to go along with them. I thought a lot of them were hilarious, especially "Monster Mondays". After reading this, I'm definitely going to check out the other books! 2 of 2 people found the following review helpful. I had someone suggest this title, so I downloaded and read it to them. They enjoyed it. Am planning on buying the paperback, for the next time I get a last minute baby sitting call, I can give them the book with a box of crayons and they can color away. LOL
