Cy Dethan : Broadcast: The TV Doodles of Henry Flint before purchasing it in order to gage whether or not it would be worth my time, and all praised Broadcast: The TV Doodles of Henry Flint:

The mind of Henry Flint is a galaxy of beautiful atrocities - a nightmare factory where the bestial becomes benign, the mundane magical. Henry Flint is at once a full-service doodling savant and a one-man alien zoo, and this never-before-seen collection of his personal work is an attempt to chart a single, crooked leg of the artistic journey he takes daily.

Welcome to the best of the bestiary.
