I love this new book by Tina Golden, the detail of each of the "Captivating Circles" is amazing. Each circle in this new book is different from the last. I love this book and how it's all hand drawn. It makes it more personable when it's all hand drawn, and it is quite beautiful. I love all the details, I started to color my first page and I started with a more simple design and will move on to a more complex design. The

first one I picked has many different patterns inside the circle and it's very intriguing. I will update my review with pictures once I have finished coloring them. 1 of 1 people found the following review helpful. Circles of Life! By Sue SanderWow! And yet another awesome coloring book by Tina Golden! Beautiful mandalas different from all others, each one more beautiful and captivating than the one before it! Each page fills you with a sense of serendipity, the pages seem to come to life as you color them! Lots of stunning details and with different color choices, you can make each one a stand alone gorgeous piece of artwork! Tina's drawings are always drawn in clear crisp lines which makes them so fun to color and totally relaxing, puts you in a zen like state of mind. As you can tell, I highly recommend this book! As you can see below, I have already colored two pictures and am now starting on my third.
