Monica Meehan, Joanne Shurvell, Melissa Wood : Citysketch London: Nearly 100 Creative Prompts for Sketching the City on the Thames before purchasing it in order to gage whether or not it would be worth my time, and all praised Citysketch London: Nearly 100 Creative Prompts for Sketching the City on the Thames:

1 of 1 people found the following review helpful. Portable doodling and Sketching fun.By Del Pinto[[VIDEOID:mo3OM2DVF1BJCSP]]Citysketch London: A Doodle Book for Dreamers with nearly 100 creative prompts to doodle. This is not a blank sketch book, like most people are familiar with. Citysketch London inspires the creative process throw its fun prompts and activities. The Book offers over 90 creative prompts to help the reader with ideas. I love to use sketch books as traveling journals where I can put tickets, jot down thoughts and other fun

paraphernalia that I may collect on my trips. This Citysketch London has some interesting information on different locations in London and gives the reader some ideas for choosing a location or subject to sketch. The prompts are easy to do like in the "Borough Market" section, the authors talk about some of varieties of foods sold in the area. It also offers a great tip like warning the reader that the market is busy on Saturday mornings and will be crowded so the reader can plan accordingly. Also the prompt for that section is to "complete a sketch of your favorite foods" with a few other ideas. The prompts are all straight forward and easy to do. The main point is that the authors are trying to encourage the reader to actively participate in their surroundings and take note of the many small and interesting things London has to offer. The book provides some space for doodles or to adhere paraphernalia. I would say you have a half page of drawing space for most prompts. Which is enough room for a quick sketch or to use for a short journal entry. The video will provide a better idea of the space available for it. Citysketch London is a cute light weight doodle book with nearly 100 creative prompts to inspire sketches of the city. If you are planning on going to London or just dream about it, this is a fun book to inspire your own quick sketches or doodles. If you do take the book on the road with you, I recommend using a pen loop or band to attach a pen or pencil to the sketch book (Everyday Innovations Bookslings Pen Holder And Bookmark, Cranberry (BS-Cranberry)) to make it even easier to sketch when inspiration hits.

Doodle your way through the capital city of England with Citysketch London. Featuring over 100 creative prompts, you can sketch your own masterpieces of Big Ben, The London Eye, or Westminster Abbey. Citysketch London includes drawing lessons on fashion, history, and landmarks allowing you to immerse yourself in the local culture. Great for both beginners and experts, partially created prompts allow any level of artist to get started. Add your own details to create the London of your dreams. All you need is a pencil, paper, and some creativity.

About the Author Monica Meehan is a freelance writer and author of *The Viennese Kitchen: Tante Herthas Book of Family Recipes*. Originally from Canada, Monica works in publishing and divides her time between New York and London. Monica is an avid traveler, cook, and people-watcher.
