Love this book...recommend this to newcomers By JEWELRY QUEEN This is also a beginners book. i like it because it teaches you to process this products. and allows you to learn about bead embroidery. Unlike the other books like Sherry Serafini which is very intense this gives you a quick call on how to make somting so beautiful with their designs where as you can make it your own design too. Love the way it shows you that you can make anything but just remember...When making a product from any book you buy on or anywhere else its the designers designs and its copywrited by law so you can not make this butterfly in yellow and pink and say its yours just because you filled it up with seed beads, that is not truthful also you can be sued if you do this. I have written many books on bead embroidery and I have seen many others take MY DESIGNS and state it is THEIRs which its not and they are being sued because of this.To help you continue to do a good job change the form make it yours. you know now how the process works,... make your own designs but use this to guide you, and soon you will make these lovely products.Also a word..... do not undersell yourself, if it takes you 1500 hours to do... sell

the product for 1800.00 a piece ,pay yourself no less than 20.00 an hour to make these, cause its your time that is valuable not the price.0 of 0 people found the following review helpful.
