Mari Ono, Roshin Ono : How to Make Paper Planes and Other Flying Objects: 35 step-by-step objects to fly in an instant before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Make Paper Planes and Other Flying Objects: 35 step-by-step objects to fly in an instant:

1 of 1 people found the following review helpful. ... book for my 8 year old grandson and he loved it. He was able to make the airplanes ...By Betty DI bought this book for my 8 year old grandson and he loved it. He was able to make the airplanes without any adult help and he had a great time "flying" his creation all over the place. The paper provided at the back of the book was a very good quality and the patterns were attractive. I would recommend this book.1 of 1 people found the following review helpful. Loads of flying fun.By G. PoundsI bought this book for my grandson who loves making paper airplanes with his dad. Lots of easy to difficult designs that really work. Hours of fun wrapped up in a small package.0 of 0 people found the following review helpful. Great for boys who like to build airplanesBy M. De HOZBought it for my grand he loved it easy projects, most of them

Swoop, dive, glide, float, and hover with these 35 brilliant flying objects and animals that can be made in minutes. Mari and Roshin Ono bring you How to Make Paper Planes and Other Flying Objects, which comes with all the paper

you will need to make the projects so grab a piece and prepare for take off! With four great chapters looking at different types of flying object, you will find a whole host of new ways to make your paper fly. The first chapter looks at the classic aeroplane design that we all know and love, and then develops it to produce more exciting planes that are sure to win any flying contest, going longer and faster than you have ever seen before. If kites are your thing, then the projects based on traditional Japanese designs will no doubt appeal. Next up, you'll find flying animals and great ideas for insect lovers, so you'll soon catch the origami bug and want to make the dragonfly or crane. Lastly, budding pilots will love the rockets, space shuttles, and other flying objects.

About the Author Mari Ono is an expert in origami and all forms of papercrafts. Born in Japan, she has lived in the United Kingdom for many years where she works to promote Japanese arts and crafts. Her previous books include *The Simple Art of Japanese Papercrafts*, *Wild Wonderful Origami* and *Dinogami*, also available from CICO. Mari's son Roshin Ono has participated in events introducing Japanese culture to the western world and with his last book *Origami for Children*, written together with his mother, he has inspired thousands of kids across the world to produce beautiful origami models. The authors are based in Gloucester, UK.
