Melanie De Miguel : Hubble Stitch 2: Further Adventures into Planet Hubble before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hubble Stitch 2: Further Adventures into Planet Hubble:

1 of 1 people found the following review helpful. Always fun seeing what new ways Melanie has come up with ...By RoseAlways fun seeing what new ways Melanie has come up with to incorporate the Hubble Stitch into Bead weaving. This book expands on her first book, and shows more detailed pieces and patterns. However the Hubble Stitch itself is very simple and easy. Beginners should start with her first book to learn the Stitch.2 of 2 people found the following review helpful. Melanie did it again!By Torii WehlingLovely follow up to Let's Hubble. Melanie does address bead size, needles and threads in this book, sorely missed in the first. However, the designs and encouragement to explore this delicate stitch is amazing.0 of 0 people found the following review helpful. I am pleased.By BeckyItem as described. prompt shipping. I am pleased.

This book follows on from the first book by Melanie de Miguel, Let's Hubble! Melanie has taken the Hubble stitch a step further and introduces Wave Hubble. There are 8 new projects to explore as we take a step back onto planet Hubble.
