The very best toy knitter By mimi Anna Hrachovec's books and patterns are the gold standard against all other knitted toy books/patterns should be measured. I have young grandchildren and a lot of experience in the good and bad of toy knitting. I have thrown away several toy and books I've been disgusted with,. No one should have to rewrite a pattern just to be able to get a decent result. And there is no excuse today to have to sew together lots of little pieces. Hrachovec manages to avoid that silliness with amazing, clever and straightforward techniques. Plus, her books have most of the knitting info anyone would ever need. 5 of 5 people found the following review helpful. Fun for Everyone By B. Teti I have loved every book that Anna has written and this one is no exception. She has a fun and quirky take on things. Even if you aren't a knitter this book is interesting to look at. Fortunately, I am a knitter and these "huge" projects will amuse you while you're knitting

something fabulous. Think about how much fun it will be to bestow a giant piece of birthday cake to someone. My favorite is the family of guinea pigs and I'm going to knit them for myself. Please take the time to appreciate the wonderful photography too. This is such a happy book; any knitter will want it in their library! 0 of 0 people found the following review helpful. Five Stars
