Bridget M. Cook, Meta Tratnik : Idrija Lace: Patterns from the Idrija School of Lace, Slovenia before purchasing it in order to gauge whether or not it would be worth my time, and all praised Idrija Lace: Patterns from the Idrija School of Lace, Slovenia:

The patterns range from beginner up to intermediate, however, a basic knowledge of bobbin lace stitches is needed to work the patterns. The patterns are color coded, and include the pricking, a photo of the finished piece, and instructions for each new 'stitch' to be learned. The only reason I didn't give it 5 stars is because it is so expensive to purchase a second hand copy at this point of time. Also, this is a softcover book, not a hardcover book. 1 of 1 people found the following review helpful. Great Idrija book By luvmoose This is a fantastic book! It

arrived in pristine condition, with the signature of Bridget Cook, too. Typical Idrija narrow lace patterns, and patterns with flowers. 0 of 0 people found the following review helpful. Excellent resource! By Sweet Lady Gem Wonderful book! Easy to understand diagrams. Wonderful book if you want to try this type of lace. However...third party sellers hyper-inflate the price. You can buy it directly from the author for much, much, much less...it's on her site. Enjoy!!!!

This source and reference of Idrija patterns will appeal to all students and lacemakers requiring a new challenge. Each of the 40 designs is illustrated and full instructions are given, complete with pricking and five-colour stitch diagrams.
