Retro couples takes us back to those sultry, cool days of yesteryear. A time of coppers, molls, leather jackets, pencil skirts, pearls and cufflinks. This is the Vintage tone of this book. These are greyscale....which I love and each one is different. I like that each page has a title. The one I shared is: In Cahoots. The paper is ok with some tooth to it. Each illustration tells a story, so it's fun to imagine what the story is. Really love this coloring book! I was In The Mood to color as soon as it arrived.0 of 0 people found the following review helpful. Good book.By Kindle CustomerMet expectations.
