The artists shown have some previous reputation for mixed media and provide lots of eye candy. There are directions for using different media to achieve the look. But it is mostly an example of using a different theme and substrate for mixed media. Even so I found it inspiring and am looking forward to tackling my own garden book. 0 of 0 people found the following review helpful. Don't miss By BevK Wonderful ideas that I can't wait to do. 2 of 2 people found the following review helpful. Beautiful Book! By Kim Wells This book is inspirational. I love the photos and the words of the artist as they describe their artwork and what their real-life garden means to them. And for those who read it that are artists, it's good to have the list of materials they incorporated to create their beautiful art garden.

This book acts as a showcase for a collaborative art project sponsored by artists Angela Cartwright and Sarah Fishburn. The project explores the theme of "gardens" as a metaphor for peace, beauty, tranquility, reflection, and creativity, while at the same offering readers an inspiring collage workbook that explores the techniques, methods, and the insights of the participating artists. The book includes inspiring garden-related quotes that artists can use in their own work, a blank "garden gate" template, and a gallery of garden-themed imagery that readers can alter and use in their own artwork.

About the Author Angela Cartwright 's art and photography is exhibited and collected internationally. Her unique techniques are explored in her book *Mixed Emulsions* (Quarry 2007). Known for her acting roles in *Make Room for Daddy*, *The Sound of Music*, and *Lost In Space*, she curates A Studio Gallery in Los Angeles, California where she makes her home and garden. Sarah Fishburn describes her work as mixed-media narrative. Her art has been featured in numerous magazines and a shelf full of books. She lives and gardens in the foothills of the Rockies.
