By Dabbler I bought this as a replacement for my hardcover edition that disappeared in a recent move. This is one of my favorite Vanessa Ann books, there are a number of charming and pretty designs (pretty much all counted work, cross stitch) suitable for framing and gift giving or keeping for yourself. I was disappointed not to find a hardcover edition like I had, all that was available was the booklet.

By Patti Cowher It was listed as having a combination of Victorian and Art Deco patterns. There was only one pattern that even approached Art Deco in design. I bought it for the Art Deco, so I was very disappointed.

Many of these lovely, romantic designs are reminiscent of the Art Deco era, others have a Victorian feel. The projects use scrumptious fabrics like satin, velvet, and polished cotton, as well as lots of lace and silk ribbon, each one suitable to give as a gift to someone special or for a bridal shower. There are lots of hearts and tulips, other flowers, wall hangings, table napkins and runners, gift bags and boxes, a sampler, pillows and bolsters, even a picture of a peasant

girl and her ducks. Anyone will enjoy time spent creating these beautiful items, as well, they will be proudly displayed!
