Bina Abling, Kathleen Maggio : Integrating Draping, Drafting and Drawing before purchasing it in order to gauge whether or not it would be worth my time, and all praised Integrating Draping, Drafting and Drawing:

0 of 0 people found the following review helpful. Love that it is spiraled By Sewingbeauty A plethora of info. This is a must to have in your reference library. Just ensure you get an unmarked copy if buying used or at least readable one because critical info can get lost in colored markings. Info is thorough and up to date. Love that it is spiraled. 11 of 12 people found the following review helpful. Terrific Book! By lakem123 This book is clearly written with the pictures to match. believe me, you won't be disappointed. I have several draping books and this is in my top three. This book takes an easy approach to draping and drafting. Both techniques are used when creating a pattern. This book is really good! 0 of 1 people found the following review helpful. Integrating draping, drafting and drawing in dressmaking By Ethel A.

GrangerThe information in this book is just what I've been looking for. It covers the whole realm of fitting sewing for others. Thank you

This handy studio reference teaches draping, drafting, and drawing the way they are practiced in the industry: by integrating them throughout the creative process. *Integrating Draping, Drafting, and Drawing* illustrates the design process, encompassing sketch and garment pattern development, and creates bridges between studio methods and design illustration. Chapters are presented as hands-on learning experiences with lessons that mimic classroom demonstrations. Step-by-step photographs portray the draping process in a sculptural way rather than using illustrations, which cannot truly depict the response of fabric draped on a dress form. Throughout the book, instructions for producing patterns and slopers-skirts, bodices, necklines and collars, and sleeves-are presented, along with variations, so that students will be able to drape, draft, and draw complete garments. The concluding chapter of the book is devoted to drawing exercises based on the work of 20th century designer Donald Brooks.

About the AuthorBinaAbling is an instructor atthe Fashion Institute of Technology.Kathleen Maggio is an instructor at Parsons the New Schoolfor Design.
