Kim Rae Nugent : Interactive Art Workshop: Set Your Mixed Media in Motion before purchasing it in order to gage whether or not it would be worth my time, and all praised Interactive Art Workshop: Set Your Mixed Media in Motion:

1 of 1 people found the following review helpful. Stimulating - and lots of good infoBy Marcia O'RourkeVery Interesting with a lot of good ideas for waking up one's imagination.1 of 1 people found the following review helpful. All new stuffBy J. K. BerryThe person who said she learned nothing from this book could not have read it. The projects are all new, I have seen them in no other book and I have a lot of books. Kim is inventive and unique, and personally, I think almost anyone who journals or make books will find something to use here. Go for it!1 of 1 people found the following review helpful. Rich Content and Excellent ExamplesBy D. KattenbrakerI heard about this workbook from another group of artists. It was all they promised and better. The projects are unique, the examples come from lots of different artists and are diverse and interesting. A good resource!

Interactive Art Workshop guides you step-by-step through the creation of more than 20 projects, each with a unique interactive element ranging from paper wheels that magically change images as they are turned, to fully functioning pull tabs, to flapping doors and slide puzzles. A gallery of inspirational examples from a wide variety of talented contributors (including Claudine Hellmuth) follow each tutorial. The author and contributing artists go beyond moving parts to include techniques that also engage the senses of touch, smell and sound for an overall sensory experience. You will be moved to create art that moves, both literally and figuratively.
