However, after attempting/completing 3 of the animals (snortimer the pig , pinkerton the flamingo and paisley the peacock), I'm cautious to start the others. All 3 have errors. I've managed to fiddle around and correct the rounds to the best of my ability. But no matter what I did, I couldn't quite get the flamingo right. My kids have renamed him "Derp-mingo".So unless you want to waste time trying to figure out the author's intentions, wait for an errata0 of 0 people found the following review helpful. Suzy's Artsy-Craftsy Sitcom blog "If you have young sons or grandsons, you're likely to find something fun to crochet for them in this book. You're just as likely to find something fun to make for your daughters and granddaughters. I think some of the patterns are cute (without being overly 'cutesie'). Some, like the alligator, are appealing, but not what I'd necessarily call 'cute' a good mix of boy-friendly / girl-friendly, overall."
