From Brand: Unicorn : Jamieson's Shetland Knitting Book 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Jamieson's Shetland Knitting Book 2:

7 of 7 people found the following review helpful. Great seamless construction!By JoanieI particularly like this book for its almost seamless construction. Sweaters are started at the ribbing and knitted in a circle up to the bottom of the armpits. Then you split the front and back and knit separately. The only seams are at the top of the shoulders and the sleeves are knitted in a circle. Great construction! I knit all my sweaters like this.0 of 0 people found the following review helpful. Solid knitting bookBy Kim A. MillerNice pattern book, but I really think I would only like to make one. But this only my personal preference. The styles weren't what I was looking for. But for the price I paid it was

worth it.0 of 0 people found the following review helpful. Very niceBy Helen TroyVery nice designs, with well written patterns.

Jamieson's is pleased to present this second book of handknitting patterns. Many use traditional techniques - some are more contemporary. All use the dazzling array of colours and four distinctive weights of yarn produced by Jamieson's of Shetland. All levels of knitters will be inspired to stretch themselves and try new and challenging techniques - or simply enjoy familiar stitch patterns and garment shapes, where the beauty of the yarn itself is the focus. There are beautiful textured sweaters to inspire the advanced beginner and some stunning designs combining colourwork and texture geared to the more experienced knitter. And for the Fair Isle knitter, Cottage Garden represents a tour de force of three colour knitting. There are smaller projects like the Brocade Scarf and the Scottish Tam. Beginning knitters looking to expand their stitch repertoire will find the Basketweave Vest or four Panel Jacket manageable challenges where the yarn - in dappled tones like Seaweed, Scotch Broom and Spagnum - does a lot of the work for you.
