Detailed, intricate and lifelike patterns of tigers, giraffes and elephants (just to name a few!) are lovingly ready to be stitched. Highly recommend this for any cross stitcher!2 of 2 people found the following review helpful. Truly realistic animals -- NOT cartoon type! BEAUTIFUL!By MarixstitchThe artist has captured the true essence of the animals! The animals are not silly, toy-type-- they look real! As a long time stitcher, I recommend this book! Look at the book throughs 'see it now' feature! The charts btw are in color -- which I prefer -- you can alwaysPhoto copy to black/white. Highly recommend!1 of 1 people found the following review helpful. I was disappointed that the previous owner chose to

tear out the main pattern page for the Leopard. Other than that it is so well done and the animals are a joy to cross stitch.

This book includes 25 breath-taking designs inspired by Jayne's own sketchbook and photographs taken during her recent summer safari adventures. It enables you to get a glimpse inside Jayne's sketchbook and read fascinating extracts from her safari journal, bringing the cross stitch to life. It features the most popular and magnificent animals on earth such as the rhino, elephant, giraffe and leopard, each captured in the beauty of its natural surroundings. Projects range in size and complexity, but incredibly realistic detail is achieved whether a small half page, or a larger four page chart design has been chosen from the book to stitch. A cameo selection of six delightful, quick-to-stitch designs have been included depicting a hippo, ostrich, lioness, elephant, leopard and crocodile, perfect to put on the front of a card or photo album.
