For the cost, I hoped there would be more " meat. It was lovely but did not fit the bill for the person who I intended to give it as a gift. Great concept but needs more to it...1 of 1 people found the following review helpful. The thought-provoking prompts and beautiful photos in this book offer loads of inspirationBy CustomerThe thought-provoking prompts and beautiful photos in this book offer loads of inspiration, and get you thinking outside the box!0 of 0 people found the following review helpful. Kim Rae Nugent shows you how to find your creativity and get startedBy CustomerKim Rae Nugent 's Journal Starters book is amazing. This artist has a way of showing you how to open up your creativity and how to get started. I travel quite a bit and always hope to journal along the way using sketches and writing, but I always came back disappointed, After reading Journal Starters, I came

back from my trip to Santa Fe with a beautiful journal I created, full of my experiences and my thoughts. I know I will always treasure this journal and I look forward to creating my next one. You really don't have to travel. Kim helps you delve into yourself so you can create a journal for special experiences, or perhaps one for every year. I especially liked the pictures Kim has in her book and the shapes within them. Now I find myself more alert to my every day surroundings. Everything around you is full of shapes and sounds and life. If you are interested in Journaling, get this book.

Whether you are a seasoned visual journaler or new to the concept, *Journal Starters* is a unique book and useful tool for your journaling adventure. Writers will also ascertain, journaling in response to images helps to jump-start their ideas. Collage artists will find the variety of images a useful addition to their palette.

Journal Starters is a unique and beautiful concept for both beginner and advanced journalers. It is a book of photos varied by composition, color and subject that can be used as journal pages or cut up to create new compositions. In the back of this glorious book Kim includes 36 imaginative visual prompts, and 36 written prompt cards for subject matter that reflect her unique and rich approach to journaling. And there is more! Many wildly artful examples of what her creative community has done with these very same pages. This book will keep you busy for a good long and interesting time. Jill K. Berry, author of *Personal Geographies*, *Map Art Lab*, and the upcoming *Making Art From Maps* (Rockport July 2016) About the Author Kim Rae Nugent is a multi-media artist, author and teacher who resides in Wisconsin (USA) with her husband, Mark and Boston Terrier dog family. Visual journaling is not new to her, in fact she has been combining words with images since she was first able to write. But over the years her visual journaling has changed in different directions and continues to grow in importance. Her first book *Interactive Art Workshop: Mixed Media in Motion*, published by North Light Books, also has visual journaling applications. Kim has studied art at the University of Wisconsin-Milwaukee, University of Wisconsin-Washington County and Cardinal Stritch University. Her artwork has been featured in numerous books and magazines. She was an Artist-on-Call for Stampington Company's *Inspirations* magazine. Kim also participates regularly in local and national exhibits and shows.
