Alison Jenkins : Jurassic Towel Origami before purchasing it in order to gauge whether or not it would be worth my time, and all praised Jurassic Towel Origami:

By FunnyBaldMan In this book the author, Alison Jenkins, created some interesting prehistoric towel origami creations. I think most young boys would get a real kick out of these creations and you'd be their hero forever. Towel origami is used on many cruise ships, resort hotels, etc. I WOULDN'T suggest any of these creations for the hotel or cruise markets. Many of the creations need other things like clothespins, hairbands, kitchen sponges, various colors of towels, etc. to make them. One even requires rubber gloves! It's not the normal quick and easy towel origami you'd do at the drop of a hat. Housekeeping could never make these creations and get their work done. If you are willing to put the time and energy into making these creations, the instructions and photos are nice and easy to follow. For the towel origami fan this book is probably worth buying to have on your shelf. For those in housekeeping I'd suggest the Cruise Ship Towel Folding DVDs sold online by FoldingMagic or some of the other books on towel origami like Alison's first book on towel origami The Lost Art of Towel Origami.

Thanks to Jurassic Towel Origami, readers can amaze their houseguests and friends. It's also the perfect craft book for

kids with its combo of dinos and origami. Discover and create 15 distinct dino projects from Stegosaurus to Brontosaurus. With easy step-by-step instructions and photos, it's simple and fun to make extinct creatures come alive. This interactive book is an imaginative and humorous gift for just about anyone. Towel meets T. rex and lives to tell about it.* This book is quirky and unique, just like most houseguests, making it the perfect self-purchase or gift.

About the Author Alison Jenkins turned a pastime into a passion when she expanded her paper-folding talents to bath towels. Using the same basic principles found in paper folding, Alison creates positively amazing works with towels. Alison contributes to craft, home improvement, and lifestyle magazines from her home in the United Kingdom.
