I will be using it a lot in my crafting time, a good book if you want something different.

In this book on Tea Bag / Kaleidoscope folding, new techniques are being used, like 3-D folding, tile folding and weaving. Paper edgers and coloured inks pads are used to give your cards nicely decorated edges. The folds are kept quite simple to let the beautiful illustrations come out well. Even if you have never tried folding before, the clear diagrams will guide you through your first folding experience. I am sure you will enjoy this book. There are 48 pages

with over 68 different design / folding schemes. Ecstasy Crafts will be stocking the different Tea Bag papers that are used to create all the beautiful cards illustrated in the book.
