From Brand: Xrx Books : Kids Kids Kids: 40 Winning Patterns from the Knitter's Magazine Contest before purchasing it in order to gage whether or not it would be worth my time, and all praised Kids Kids Kids: 40 Winning Patterns from the Knitter's Magazine Contest:

7 of 7 people found the following review helpful. A treasure trove! By Audrey C. Friedman If you're a grandma like me who loves to love your grandkids with creating handknits, someone with lots of baby or children's gifts to give, or a mom who clicks the needles to relax, this is a great collection that you will return to often. I've just begun "Beribboned," a gorgeous and very feminine baby sweater. The directions are well-written, the illustrations lovely and large, and the designs eclectic and innovative. I can make my knitting "to do list" for the next several years from this collection :) 3 of 3 people found the following review helpful. I like this book. By Janice L Daus A good book on making children's clothing. I use it to make charity clothing. 3 of 3 people found the following review helpful. This book has tested, creative knits for children that show real imagination. By Arlynn Grimm This book draws from a variety of sources. Different knit designers and home knitters have their very best designs. Every design has something unique. They do vary in difficulty, and some would take a lot of concentration to knit. This has to be one of my vary favorite children's knits books. I will never knit another sweater for a child without looking at what this book offers.

Contains fun-to-wear garments and toys to knit for children.
