I wanted my copy so I got him hid own!1 of 1 people found the following review helpful. Okay for gift givingBy photogal21The book is well written and easy to follow directions. However, not all of the projects are good. The people projects are off and rather scary. It gives good ideas for gifting of towels. I would say 25 out of 50 projects are worth it and the other half makes me think that this is a book to read at the Library.
