I have made far more use of this than I expected to: the chullo pattern doesn't have to have such an icky color scheme, after all, and no one will make you do all that needlefelting on everything. I don't because my cats would have no compunction about unraveling all the needlefelted things and eating the yarn. The cat beds work surprisingly well, if you like to felt things, and I have become a major dispenser of felt mice. No one in my address book is safe: little mice have traveled to ten states so far and that's only among friends. After a juvenile prank with one at my favorite Mexican restaurant, the owner ordered several dozen in Cinco de Mayo colors, and there will soon be a pinata-full at a local kitten shower. You can knit a complete mouse in the doctor's office or in a nasty traffic jam; it's perfect short-term therapy. Anyway, I've had fun with this book. I'd give it a try, if I were mew.0 of 0 people found the following review helpful. Here kitty kitty!By Cie MathisI love cats and the projects in this book are adorable and diverse. The knitted mice are perfect and I love the kitty earflap hat. There are about 20 projects organized by "Projects for Cats," "Projects for People," and "Projects for the Home." Also the skill levels are balanced between easy, intermediate, and experienced so there should be something for every skill level. I'll probably wear this book out with projects for my own cats, friends with cats and family with cats.4 of 4 people found the following review helpful. For Cat People. Lots of WoolBy LeighI love cats and really like this book. Many, many of the projects are made with wool and/or are felted. I personally do not use wool. I however still find the book fun. I'm working on the "Felted

"Carpet Bag" in a worsted weight yarn and it's coming out great. Just needed to knit swatches and adjust needle size. I will make the Butterfly for the bag out of fabric. It would have been nice to have a full size template for the Butterfly in the book. I also plan to make the kitty pillow. The book is probably not for beginners but I am far from an expert knitter and find the instructions workable. I even plan to make the "Felted Cat Doorstop" out of acrylic yarn as a couch pillow. Charts in the book could be incorporated into other projects too.

It's the first knitting book entirely devoted to the funny, furry felines in our lives! Discover creative ways to knit up practical projects for kitties to love and cat-themed designs for owners to enjoy. Just like a cat batting at a ball of yarn, it's the perfect playful match. \* Over 20 projects feature items for cats, their people, and their homes along with adorable photos of cats with their knitted treasures \* Choose from toys, beds, mats, and more for cats, plus feline-inspired sweaters, hats, pillows, and bags for cat-loving knitters \* Find projects for a variety of styles and skill levels, from felted designs to Fair Isle patterns
