Lovely patterned cats in full size as well as half sizes tooBy nikiI received this book in exchange for an honest review.I have thoroughly enjoyed colouring in the pages of this book. The pages are numbered and not perforated. The first 20 pages are of different handmade designs of the same image of the cat with different designs inside the cat. There is no background and the pages are not framed.The patterns are really creative and fun to colour in. I think this book is for all levels of colouring skills and also suitable for all kinds of pencils and pens. The pages are not bleed proof but there are only designs on one side so there is not the worry that the ink will go onto the image on the reverse side. After page 20 there are the same images again but 2 images per page.This is a lovely book and excellent thought out designs that I have enjoyed and I would highly recommend this book to anyone who likes colouring in. I used copic sketch markers but colour pencils or other pens and pencils are perfect for these pictures.I have added photographs.0 of 0 people found the following review helpful.
