It is a beautiful book full of beautiful projects from a wide range of mediums... it has a little bit of "everything"! There are paper and stamping crafts; embroidery and counted cross stitch; sewing and crochet; mixed media projects; a softy bird; fabric hearts and flowers; clay beads and the list goes on. All you need to do is take a look inside at the table of contents and you'll see what I mean. I fell in love with the split-wood butterfly boxes and wanted to find Eline's stamps. I searched the various web sites that are mentioned in

the introduction and found a couple of sources. All of them are overseas and I had to use the translate feature in my browser but I had no problem finding the stamps and was able to order them easily with no complications. I love this book and not only do I find myself inspired to branch out and try something new, but I see projects that use techniques I'm familiar with and I'm impressed by Eline's fresh approach and versatility! 2 of 2 people found the following review helpful. Soooooo cute! By Rachel I bought this book in Amsterdam earlier this year. The projects were so cute I didn't care that I couldn't read it - I hoped I would be able to just be able to make the projects with the patterns and no instructions. When I saw it was available in English, I had to have it to "fill in the gaps" for directions. I'm keeping both versions but one is just a souvenir. 1 of 1 people found the following review helpful. Okay not great By Pinupgirl After looking inside I got excited about this book. It's they kind of things I like to do. But when I got it I was a little disappointed. I guess they showed all the best things in the review and the rest did not live up to my expectation.
