From Kalmbach : Stitch Workshop: Herringbone Stitch: Basic Techniques, Advanced Results before purchasing it in order to gage whether or not it would be worth my time, and all praised Stitch Workshop: Herringbone Stitch: Basic Techniques, Advanced Results:

0 of 0 people found the following review helpful. Some very cool designsBy K. ForbesI've purchased the other books in this series, and I'm glad I have all of them . None of the designs knocked my socks off, but there are a few that I like in each book. This one is no different. I like it because it starts with the very basics, and the designs get more complex as one progresses through the book. If you're just starting with Herringbone stitch, or if you want a refresher of the basics (like me) you'll like this book and the others as well. However, if you are already experienced, I think the book

is too expensive for the two or three intriguing designs. I will make this caveat. I'm much older than the average person who would want this book. Maybe more of the designs would be of interest to a younger beader. 1 of 1 people found the following review helpful. Great book
By Maris I purchased this book especially for a particular pattern and was not disappointed. Herringbone has been difficult for me and the instructions have helped me a lot. Recommend this not only for the patterns but for learning more about herringbone. 0 of 0 people found the following review helpful. Love this book,
By David Garcia I love beading, and wanted to expand from my usual peyote stitch usage, and this book has all kinds of projects, from easy and quick to challenging and really amazing! Thanks.

Herringbone Stitch is the third book in the Stitch Workshop series. A detailed explanation of the basics is followed by 26+ projects updated from the pages of BeadButton magazine. Readers will learn how to make fringe, scallops, looped fringe, and more as they work through 26 stitched necklaces, bracelets, and earrings. A wide variety of project styles, some including pearls, crystals, and art beads, guarantees something for everyone!
