Love this classy beautiful book!By ILSE SCHAFFNERGREAT book with GORGEOUS projects for the stitcher who's annoyed or bored with the humongous amount of cutesy kiddy stuff out there. Mostly simple cross stitching but also includes some other embroidery stitches I look forward to trying - they don't look too hard and I'm intermediate level. Looks practically new although it was listed as very good condition. definitely plan to order from hippobooks again!0 of 0 people found the following review helpful. Two StarsBy NancyNot exactly what I was hoping for from the cover, but it's ok.2 of 2 people found the following review helpful. Personal TasteBy AI thought I would really like this book. It's just not the kind of designs I like. It has way too many samplers for my taste. I really liked the tea cozy but there's not much in the way of instructions for it. I'm glad I only paid \$5 for it with shipping. I'd be really disappointed if I paid full price.Just a little hint, if you collect cross stitch patterns from magazines, you probably already have half these designs.There are a few cute patterns, just not enough that I like.
