0 of 0 people found the following review helpful. Great fun book with lots of variety in the projects. By Susan D Wov not only is there the original duct tape you can now also get fabric duct tape. This book is full of ideas for you to use the fabric tape to make a mix of projects. There is fabric tape, washi tape, lace tape. All the tapes come in multitudes of colour and design. The projects that fill this book are; Sneakers, Belt, Picture Frames, Clutch Bag, Vases, Corkboard, Table, Bangles, Tote, Phone Case, Curtain, Cardigan, Sunglasses, Case, Jewellery, Flowers, Lampshade, Pillows, Pockets on garments, Candles. With such an amazing amount of projects you

are sure to have lots of crafting fun. The projects have clear step-by-step instructions. They also detail what level the project is for. The projects are for beginners to advanced. This means that there is a project for every level to make. There are little tips with each project but unfortunately there aren't any pictures showing you through the steps. I prefer having some picture guidelines especially with the more difficult projects. I love the variations in projects. They are all fun and colourful. Some of the projects also have notes about variations. You can use the tape you choose and therefore you can make the designs your own to suit your personality or need. Please be aware that the tape isn't machine washable so some of the projects will have to be spot cleaned or the tape removed before washing. The projects are fun and interesting and seem very easy to make. Great fun book with lots of variety in the projects. I won a copy of this book. However all opinions expressed are my own. No monies were exchanged.
