From Running Press Miniature Editions : Tarot (Miniature Editions) before purchasing it in order to gage whether or not it would be worth my time, and all praised Tarot (Miniature Editions):

When the cards started wearing out, we decided to get a new deck. The new cards are easier to shuffle because they are made from normal playing card stock instead of the thick stock they used to be printed on. The booklet is identical in content, but the binding is not as good. We'll see how it does over time.The reason I'm not giving this product five stars is the new packaging. The carton has a complex arrangement of a box for the instructions and cards with an external wrap-around flap for the booklet. I'm concerned that the booklet will fall out because nothing holds it in place but the flap which uses a magnet to stay closed and does not line up properly. (Who thought that was a good idea???) We haven't traveled with it yet though, so time will tell. Inside the box, it's still the same great deck, with less scary interpretations than many other tarot decks.2 of 2 people found the following review helpful. Reunited and it feels so goodBy Samantha RinerI bought this deck waaaay back in like '02 or '03 when I was in 7th grade and they quickly became my most prized possession. I've never owned

a tarot deck before or since that I felt so connected to and got such amazingly accurate readings from. They served me well for many years until 2011. Then my pit bull decided she needed to eat them and I was left with only 2 cards, the Devil and one other that I have since lost and can no longer remember. I mourned the loss of my deck, the reservoir of my power for so many years. I tried using another deck I had been gifted but they didn't speak to me at all. Last year I decided to see if I could find another deck like the one I had had for so long, so I turned to Google. I couldn't remember anything about the brand and I had thrown the box away years ago so it took a lot of digging, but after over an hour of searching I found them! After clicking on various links trying to figure out where I could buy them I was finally brought here and this deck became my first purchase! Now, to the actual product review...I will start by saying that these are great cards. I read through the booklet explaining the meanings of each card when I got my first deck, but I wouldn't exactly recommend that. I always just went with what the pictures said to me. The art is somewhat childlike and simple but that's why I love them so! They're so easy to interpret! And my interpretations never matched what the booklet said so I tossed that pretty quickly lol. Just go with what the cards tell you. I've gotten AMAZING readings from complete strangers with these. Information that actually kind of freaked me out, stuff that literally no one else knew about the person I was reading for. As for the physical aspects of the cards, there are some differences between the new deck and the old deck. The artwork is exactly the same (thank goodness!) but the cards are slightly smaller and the cardstock is noticeably thinner. My old deck felt sturdy in my hands and these feel kind of flimsy. I have to be careful when I shuffle them not to bend them too much. I've had this new deck for quite some time but I rarely use them. When I first got them I was thrown off by the aforementioned differences. They felt empty, hollow. I tried a reading and got absolutely nothing from them. They've been sitting on my altar for the better part of a year now charging with my energy. Hopefully the next time I pick them up they'll be 'alive'. It's been too long!

By GrrrrrTarot Nova was my first tarot deck but then they accidentally got ruined. I was very happy to find them here. They are small cards but they are sturdy. The cards are black with basic drawings. They don't look like the traditional Rider-Waite deck but I like that. It's a good deck to have, perfect to carry around. It comes with a little book, the same size as the cards, that has interpretations for each card. It isn't in-depth but good for novices.
