Though I never made any, I know basics of knitting because my mom was into knitting and when I was young I used to help her. So, when I was searching for knitting books, this one was free. So, got it.This is very detailed book on knitting. Im referring this book and making scarf. Im almost done with it. I found this book is easy to follow. If you love knitting and want learn, you can refer to this one. Author has provided illustrations as well. Only thing is, author has to take care of formatting of this book but contents are really good.I hope my wife likes my gift :).4 of 4 people found the following review helpful. Very basic introduction to knittingBy bkmckThree books essentially identical, VERY basic info. Crochet book was nice add on, but none would serve as a resource for anyone but a complete newbie.1 of 1 people found the following review helpful. A little bit of redundancy for the first two books but the value is still thereBy Billy Mac DaddyI got this book

hoping to surprise my gf (who loves knitting) with some new mad knitting skillz! It was difficult at first but the pictures on the first book aided me greatly. The second book seemed like a random throwaway because it had the same pictures as first book and similar topics. Third one made up for it as I learned a couple of new things. Overall nice bundle as it helped me show off (she was still impressed!) but could have been a bit better.
